SUMMARY

- Having around 3 + years' experience as developer in IT field.
- Worked as web developer on various technologies like Angular, Dot Net Framework, Entity Framework and MS SQL Server.
- Experience in developing web applications using N-Tier architecture and having strong knowledge in OOPS concepts.

EXPERIENCE

Software Developer (Oct 2021 - Present) 3.1 years
AmpleLogic
- · Collaborated with cross-functional teams to ensure seamless integration of software components.
- · Mentored junior team members in coding techniques, algorithms, and problem-solving strategies.
- · Wrote unit tests to validate code functionality and prevent regression errors.

EDUCATION

08/2015 - 09/2019
Warangal

B.Tech/B.E. - Electrical

PROJECTS

eDMS (Electronic Document Management System)

Developed a comprehensive Electronic Document Management System (eDMS) tailored for the pharmaceutical industry to streamline document handling, improve regulatory compliance, and enhance operational efficiency. The application features secure storage, version control, and automated workflows for critical documents, ensuring easy retrieval and audit readiness.
- · Led the full software development lifecycle, from requirements gathering to deployment and maintenance.
- · Implemented user-friendly interfaces and integrated advanced search functionalities to facilitate quick access to documents.
- · Collaborated with cross-functional teams to ensure compliance with industry regulations (e.g., FDA, GMP).

eLogbook for Pharmaceuticals

Developed an electronic logbook (eLogbook) application designed specifically for the pharmaceutical industry to enhance data tracking, improve compliance, and streamline documentation processes. The eLogbook enables real-time logging of critical activities, facilitating easy access to records and ensuring accountability in operations.
- · Led the design and implementation of the eLogbook, focusing on user-friendly interfaces and efficient data entry processes.
- · Integrated features such as timestamping, user authentication, and data encryption to ensure data integrity and security.
- · Collaborated with regulatory teams to align the eLogbook functionalities with industry standards (e.g., 21 CFR Part 11).

STRENGTHS

🪄 **Technical Skillset**

Proficient with a broad technology stack including C# .NET, Angular, SQL Server, ASP .NET Core Web API, ADO .NET, PostgreSQL, Entity Framework Core, HTML, and CSS.

SKILLS

C# .NET	Angular	Web API	Entity Framework Core	SQL Server	CSS	HTML	TypeScript	JavaScript

ADO .NET	Debugging

KEY ACHIEVEMENTS

Employee of the Month

Recognized for exceptional performance and dedication, demonstrating outstanding contributions to team goals and project success.

Star Performer Award

Awarded for consistently exceeding performance targets and delivering high-quality results, showcasing leadership and commitment to excellence in all assignments.

PASSIONS

Software Development

Passionate about developing software solutions, streamlining processes, and enabling team collaboration through digital tools.
